GRADING SYSTEM

The final mark of the course is calculated as follows:

$$NF = \max\{NF1; NF2\}$$

$$NF1 = 0,45 \cdot EF + 0,25 \cdot EP + 0,15 \cdot EL + 0,1 \cdot EdP + 0,05 \cdot EdL$$

$$NF2 = 0,45 \cdot EF + 0,35 \cdot EP + 0,2 \cdot EL$$

EF = mark of the final examen

EP = mark of the mid-term exam

EL = mark of the laboratory exam

EdP = mark of the activities of evaluation of theory

EdL = mark of the activities of evaluation of laboratory

In case of failing, a reevaluation exam can be carried out, which allows recovering 80% of the course (the mark of the laboratory exam, EL and ACL, is excluded). Students can attend the reevaluation exam if they accomplish the requirements defined by the EEBE in the Assessment and Permanence Regulations.

Requests for review of problem and laboratory submissions must be requested by email, no later than 7 days after the submission date.

EXAMINATION RULES.

The language (catalan/spanish) assigned to a group will be the language in which classes will be taught, including exams.

The exam supervisors will help anyone who needs it by translating words and/or phrases.
