- EV1 Written or oral tests to monitor individual knowledge
- EV2 Evaluation of practical work by delivering reports (project)
- EV3 Attendance and participation in theoretical and practical sessions. Delivering exercises and problems
- EV4 Evaluation of individual work

The final evaluation includes the generic competence tested in the subject: CT4. Teamwork. This Teamwork mark constitutes the 20% of the project qualification. It's calculated by the contributions made by each student in the development of the project from the professor assessment and the other students point of view.

Projectes d'Enginyeria" (Engineering design) has not RE-EVALUATION exam.

### Constraints

- It is necessary to pass the course the delivery of a project developed specifically as an activity of the subject.

### Regulations for carrying out activities

- Exam of theory without consulting learning materials
- Exam of problems consulting learning materials
