

## Course guide

### 280627 - 280627 - Health and Safety at Work

Last modified: 27/05/2024

**Unit in charge:** Barcelona School of Nautical Studies  
**Teaching unit:** 742 - CEN - Department of Nautical Sciences and Engineering.

**Degree:** BACHELOR'S DEGREE IN NAUTICAL SCIENCE AND MARITIME TRANSPORT (Syllabus 2010). (Compulsory subject).

**Academic year:** 2024    **ECTS Credits:** 4.5    **Languages:** Spanish

#### LECTURER

**Coordinating lecturer:** SANTIAGO ORDAS JIMENEZ

**Others:** Segon quadrimestre:  
SANTIAGO ORDAS JIMENEZ - GNTM

#### DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

**Specific:**

1. Knowledge, use and application of the ship from the principles of safety and security of the ship, fire fighting and survival, preventing and combating pollution.

**Transversal:**

2. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.

#### TEACHING METHODOLOGY

Lectures and active participation of students.

#### LEARNING OBJECTIVES OF THE SUBJECT

Provide training in occupational hazards in accordance with the content of the Occupational Risk Prevention Law and the Prevention Services Regulation.

#### STUDY LOAD

Type	Hours	Percentage
Hours large group	45,0	40.00
Self study	67,5	60.00

**Total learning time:** 112.5 h

## CONTENTS

### Basic concepts on safety and health at work

**Description:**

Work and health, professional risks. Risk factor's.  
Damages derived from work. Work accidents and professional ailments. Other pathologies derived from work.  
Basic regulations on occupational risk prevention. Rights and duties in this topic.

CE11. Knowledge, use and application of the ship from the principles of safety and security of the ship, fire fighting and survival, preventing and combating pollution.  
02 SCS N2. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.

**Full-or-part-time:** 6h

Theory classes: 6h

### General risks and their prevention

**Description:**

Risks linked to safety conditions.  
Risks related to the working environment.  
Workload, fatigue and job dissatisfaction.  
Elementary risk control systems. Collective and individual protection.  
Emergency and evacuation plans.  
The health control of workers.

**Related competencies :**

CE11. Knowledge, use and application of the ship from the principles of safety and security of the ship, fire fighting and survival, preventing and combating pollution.  
02 SCS N2. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.

**Full-or-part-time:** 20h

Theory classes: 20h

### Specific risks of the maritime sector

**Description:**

content english

**Related competencies :**

CE11. Knowledge, use and application of the ship from the principles of safety and security of the ship, fire fighting and survival, preventing and combating pollution.  
02 SCS N2. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.

**Full-or-part-time:** 10h

Theory classes: 10h

### Basic elements of risk prevention management

**Description:**

Public bodies related to occupational safety and health.  
Organization of preventive work: basic "routines".  
Documentation: collection, preparation and archiving.

**Related competencies :**

CE11. Knowledge, use and application of the ship from the principles of safety and security of the ship, fire fighting and survival, preventing and combating pollution.  
02 SCS N2. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.

**Full-or-part-time:** 9h

Theory classes: 9h

## GRADING SYSTEM

Qualification of the activities of continuous assessment and final exam.

The final grade will be the result of the sum of the following sections.

$$N_{\text{final}} = 0.5N_{\text{ac}} + 0.5N_{\text{pf}}$$

Students who do not take the final exam or who have not given half of the continuous assessment activities will be considered "No Presentado".
