TEACHING METHODOLOGY

LEARNING OBJECTIVES OF THE SUBJECT

Information not provided

STUDY LOAD

Type	Hours	Percentage
Hours large group	15,0	12.00
Self study	80,0	64.00
Hours small group	30,0	24.00

Total learning time: 125 h

CONTENTS

title english

Description:

Go to Catalan or Spanish version

Specific objectives:

Go to Catalan or Spanish version

Full-or-part-time: 125h

Theory classes: 15h

Laboratory classes: 30h

Self study : 80h

GRADING SYSTEM

The teaching staff responsible for each enrollment group will report, in the Atenea virtual classroom, the details of the evaluation criteria and grading method.

Continuous assessment:

Continuous assessment will be carried out on the basis of the work to develop by the student during the course through the delivery of jobs or the realization of written or/and oral tests, according to the criteria and timetable to be established.

Final assessment:

If the results of the continuous assessment are not positive, it will be possible to perform a second evaluation, which will consist in a global final test that can consist in a written or oral exam or the delivery of jobs, in accordance with the criterion of the responsible teachers.

Continuous telematic evaluation

In online teaching situations, continuous assessment will be carried out synchronously and asynchronously by the means established by the University and the School, with a periodic record of academic activity through submissions, forums, questionnaires or any other means facilitated by the Atenea platform, or the alternatives provided to the teaching staff. In the situations in which this telematic teaching is a product of face-to-face teaching that has already begun, or for questions of extra-academic order, the changes in the weightings or regular control systems of the teaching will be communicated in detail to all students by the Athena of each subject.

Telematic final evaluation

If the continuous telematic evaluation is not positive, a second evaluation can be carried out, which will consist of a final test of a global nature in telematic format that will be established in accordance with the criteria of the professor responsible and the media and ICTs provided by the University or School.

The measures for adaptation to non-classroom teaching will be implemented in accordance with the criteria of ICT security and personal data protection to ensure compliance with the legislation on Personal Data Protection (RGPD and LOPDGD)
