REQUIREMENTS

URBANÍSTICA V - Prerequisite
URBANÍSTICA VI - Prerequisite

DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

Specific:
EP9. Translation from Spanish slope

Generical:
CG7. Translation from Spanish slope

Transversal:
CT2. Translation from Spanish slope
CT7. Translation from Spanish slope
CT4. Translation from Spanish slope

Basic:
CB4. Translation from Spanish slope

TEACHING METHODOLOGY

Workshops and theoretical lectures.

LEARNING OBJECTIVES OF THE SUBJECT

The main objective of the subject is the introduction to landscape architecture from a designers approach to the discipline. The contents to be developed have a theoretical and practical approach, based on the analysis of specialized bibliography and the study of a selection of the most representative landscape architecture projects according to the main themes developed at the different scales of the landscape, from the large scale to the small scale.

Full-or-part-time: 75h
Theory classes: 33h
Self study: 42h

GRADING SYSTEM

Continuous assessment
Continuous assessment will be based on the work carried out by the student during the academic year, through the submission of assignments or the performance of written and/or oral tests, according to the criteria and timetable established.

Final assessment
If the continuous assessment is not positive, a second assessment may be carried out, which will consist of a final overall test in the established methodology according to the criteria of the lecturer in charge (written or oral test and/or submission of assignments).

Telematic continuous assessment
In online teaching situations, continuous assessment will be carried out synchronously and asynchronously, by the methods established by the University and the School, with a periodic record of academic activity by submitting assignments, forums, questionnaires or any other means provided by the Atenea platform, or the alternative tools provided to the teaching staff. In situations in which this telematic teaching takes place when face-to-face teaching has already begun, or for non-academic reasons, any alterations to the weightings or regular teaching control systems will be communicated in detail to all students on the Atenea platform for every subject.

Final telematic assessment
If the continuous telematic assessment is not positive, a second assessment may be carried out consisting of a final overall test in telematic format to be established in accordance with the criteria of the lecturers in charge and the ICT resources and tools provided by the University or the School.

The measures for adapting to distance teaching will be implemented in accordance with ICT security and personal data protection criteria to ensure compliance as regards Personal Data Protection legislation (RGPD and LOPDGDD).
