Course guide  
220004 - F1 - Physics I

Unit in charge: Terrassa School of Industrial, Aerospace and Audiovisual Engineering
Teaching unit: 748 - FIS - Department of Physics.

Degree: BACHELOR’S DEGREE IN AEROSPACE TECHNOLOGY ENGINEERING (Syllabus 2010). (Compulsory subject).
BACHELOR’S DEGREE IN AEROSPACE VEHICLE ENGINEERING (Syllabus 2010). (Compulsory subject).

Academic year: 2023  ECTS Credits: 6.0  Languages: Catalan

LECTURER

Coordinating lecturer: JUAN CARLOS CAÑADAS LORENZO

Others:

DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

Specific:
1. Understanding and mastery of basic concepts about the general laws of mechanics, thermodynamics and electromagnetism fields and waves and their application to solving problems in engineering.

Transversal:
2. TEAMWORK - Level 1. Working in a team and making positive contributions once the aims and group and individual responsibilities have been defined. Reaching joint decisions on the strategy to be followed.

Basic:
CB01-GRETA. That students have demonstrated knowledge and understanding in a field of study that part of the basis of general secondary education, and is typically at a level which, although it is supported by advanced textbooks, includes some aspects that involve knowledge of the forefront of their field of study.

TEACHING METHODOLOGY

There will be theoretical lessons, developed in big group classes. The teacher will briefly introduce the general objectives of the chapter. After that, and with the aid of practical problems, the student will be led into active participation. The support material will be found in ATENEA: objectives, concepts, examples, evaluable activities and bibliography.

There will also be problem lessons, with smaller groups and laboratory practices where the basic concepts of scientific methodology will be introduced including the concept of scientific approximation. The size of the laboratory groups will be small and there will be a part of the laboratory that is going to have to be done outside it, individually or in groups.

LEARNING OBJECTIVES OF THE SUBJECT

Give comprehension and control of basic concepts of physics, especially mechanics.
Give comprehension and control of basic concepts of algebra and vector calculus.
Give comprehension and control of basic concepts of particle and solid kinetics in plain movement.
Give comprehension and control of basic concepts of particle and solid dynamic laws.
Basic knowledge of fluid statics.
STUDY LOAD

Total learning time: 150 h

CONTENTS

1. Vector and scalars

Full-or-part-time: 20h
- Theory classes: 3h
- Practical classes: 1h
- Laboratory classes: 4h
- Self study: 12h

2. Kinetics and dynamic of the particle and systems of particles.

Full-or-part-time: 75h
- Theory classes: 18h
- Practical classes: 8h
- Laboratory classes: 4h
- Self study: 45h

3. Solid kinetics and dynamic.

Full-or-part-time: 42h
- Theory classes: 9h
- Practical classes: 4h
- Laboratory classes: 4h
- Self study: 25h

4. Fluid statics.

Full-or-part-time: 13h
- Theory classes: 2h
- Practical classes: 1h
- Laboratory classes: 2h
- Self study: 8h
## Activities

### Activity 1: Theory Sessions

**Full-or-part-time:** 70h  
Theory classes: 28h  
Self study: 42h

### Activity 2: Continuous Evaluation

**Full-or-part-time:** 8h  
Theory classes: 4h  
Self study: 4h

### Activity 3: Practical Sessions

**Full-or-part-time:** 44h  
Practical classes: 14h  
Self study: 30h

### Activity 4: Statics and Dynamics Laboratory

**Full-or-part-time:** 24h  
Laboratory classes: 12h  
Self study: 12h

### Activity 5: Laboratory Exam

**Full-or-part-time:** 4h  
Laboratory classes: 2h  
Self study: 2h

### Activity 6: Mid Term Exams

**Full-or-part-time:** 3h  
Theory classes: 3h

## Grading System

Global mark = 0.35*N1A+0.4*N2A+0.10*NL+0.15*NAC  
The subject will foresee ways to recover an unsatisfactory mark in the midterm exam  
The acronyms represent:  
NL: Laboratory grade.  
N1A and N2A: First and second midterm exam.  
NAC: Continuous evaluation mark
EXAMINATION RULES.

If a student doesn't develop any activity it will be graded with a 0.
