**GRADING SYSTEM**

Evaluation system includes:

a) Exercises resolution in continuous evaluation (25% of final qualification)
b) Complementary activities like seminars, expositions and guided works (25% of final qualification).
c) Two examinations (50% of final qualification).

Reevaluation will replace the qualification of final examen, remaining unchanged the continuous evaluation.

During the period of spring of the course 2019-2020, as a consequence of the health crisis due to the Covid19, the qualification methodology will be:
- Continuous evaluation based on deliveries of exercises of the first part of the subject, being the weight a 65% in the final qualification.
- Continuous evaluation based on deliveries of exercises of the second part of the subject, being the weight a 35% in the final qualification.

**EXAMINATION RULES.**

Additional material is allowed in examination in accordance with the criteria of the professor.
