280605 - Fundamentals of Mathematics II

Coordinating unit: 280 - FNB - Barcelona School of Nautical Studies
Teaching unit: 749 - MAT - Department of Mathematics
Academic year: 2018
Degree: BACHELOR'S DEGREE IN NAUTICAL SCIENCE AND MARITIME TRANSPORT (Syllabus 2010).
(Teaching unit Compulsory)
ECTS credits: 6
Teaching languages: Catalan

Teaching staff
Coordinator: MARIA MONTSERRAT VELA DEL OLMO
Others:
Primer quadrimestre:
JOAN CARLES LARIO LOYO - 1
MARIA MONTSERRAT VELA DEL OLMO - 1

Segon quadrimestre:
MARIA MONTSERRAT VELA DEL OLMO - 1

Degree competences to which the subject contributes

Specific:
1. Ability to solve math problems that may arise in engineering. Ability to apply knowledge about: linear algebra, geometry, differential geometry to, differential and integral calculus, differential equations and partial differential, numerical methods, algorithmic numerical and statistical optimization.

Teaching methodology

(ENG) Receive, understand and summarize knowledge.
-Posing and solving problems.
-Developing arguments from a critical point of view and defending them.
-Doing work in group and individually.

Learning objectives of the subject

- To be able to apply the knowledge on basic functions, differential and integral calculus, numerical methods and statistics.
- To solve the mathematical problems that arise in engineering.
- To develop the capacity of abstraction while solving problems.

Qualification system

The final grade is the sum of the following partial grades:

\[ \text{Nfinal} = 0,60 \text{Npf} + 0,40 \text{Nac} \]

where

- \( \text{Nfinal} \): final grade.
- \( \text{Npf} \): grade of the final test.
- \( \text{Nac} \): continuous grade.

The final test consist of some theoretical questions about concepts related to the course' learning aims, and a set of problems that require the application of the methods studied. Its duration is 3 hours.

The continuous grade consist of one or two test (each one hour long), and the supervised activities carried out during the semester.

Regulations for carrying out activities

- If some of the activities of the continuous grade are missed, the continuous grade is 0.
- A student which does not make the final test or the test for the continuous grade is being considered as 'No Presentat'.
