

## Course guides

### 290606 - FISICII14 - Mechanics

Last modified: 06/10/2020

**Unit in charge:** Vallès School of Architecture  
**Teaching unit:** 748 - FIS - Department of Physics.  
753 - TA - Department of Architectural Technology.

**Degree:** DEGREE IN ARCHITECTURE STUDIES (Syllabus 2014). (Compulsory subject).

**Academic year:** 2020    **ECTS Credits:** 6.0    **Languages:** Catalan, Spanish

#### LECTURER

---

**Coordinating lecturer:** JOAN PUIGDOMENECH FRANQUESA

**Others:** DAVID GARCÍA CARRERA

#### DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

---

**Specific:**

EAB7G. Adequate knowledge of the principles of general mechanics, statics, mass geometry and vector and tensor fields applied to architecture and urbanism.

**Generical:**

CE9. Adequate knowledge of the physical problems, technologies and functions of buildings so as to provide them with comfortable indoor conditions and protection from climate factors.

CG4G. An understanding of structural, construction and engineering design problems related to building design and techniques for solving them.

CG5G. Knowledge of the physical problems, technologies and functions of buildings so as to provide them with comfortable indoor conditions and protection from climate factors.

#### TEACHING METHODOLOGY

---

#### LEARNING OBJECTIVES OF THE SUBJECT

---

Introduction to the quantification of efforts. Functioning of structures. Recognize the environmental implications of structures. Use of the appropriate technical vocabulary. Recognize innovation in architecture linked to the field of structures.

#### STUDY LOAD

---

Type	Hours	Percentage
Self study	84,0	65.63
Hours large group	22,0	17.19
Hours medium group	22,0	17.19

**Total learning time:** 128 h

## CONTENTS

---

### Syllabus

**Description:**

This is a traditional subject common in the different architectural and engineering universities. Available good bibliographic references are used to develop it. In fact, this subject is the first step for different structural subject in which the student has to get the degree.

**Full-or-part-time:** 66h

Theory classes: 33h

Practical classes: 33h

## GRADING SYSTEM

---

## BIBLIOGRAPHY

---

**Basic:**
