300212 - I2 - Informatics II

Coordinating unit: 300 - EETAC - Castelldefels School of Telecommunications and Aerospace Engineering
Teaching unit: 701 - AC - Department of Computer Architecture
Academic year: 2017
Degree: Bachelor's Degree in Air Navigation Engineering (Syllabus 2010). (Teaching unit Compulsory)
Bachelor's Degree in Airport Engineering (Syllabus 2010). (Teaching unit Compulsory)
Bachelor's Degree in Aerospace Systems Engineering (Syllabus 2015). (Teaching unit Compulsory)
Bachelor's Degree in Aerospace Systems Engineering/Bachelor's Degree in Telecommunications Systems Engineering - Network Engineering (Agrupació de Simultanëïtat) (Syllabus 2015). (Teaching unit Compulsory)
Bachelor's Degree in Aerospace Systems Engineering/Bachelor's Degree in Telecommunications Systems Engineering (Syllabus 2015). (Teaching unit Compulsory)
Bachelor's Degree in Aerospace Systems Engineering/Bachelor's Degree in Network Engineering (Syllabus 2015). (Teaching unit Compulsory)

ECTS credits: 4.5
Teaching languages: Catalan, Spanish

Teaching staff

Coordinator: Definit a la infoweb de l'assignatura.
Others: Definit a la infoweb de l'assignatura.

Prior skills

Requirements

Degree competences to which the subject contributes

Generical:

3. PROJECT MANAGEMENT - Level 2: Define the objectives of a well-defined, narrow scope, and plan development, identifying resources, tasks, shared responsibilities and integration. Use appropriate tools to support project management.
7. EFFICIENT USE OF EQUIPMENT AND INSTRUMENTS - Level 2: Use the correct instruments, equipment and laboratory software for specific or specialized knowledge of their benefits. A critical analysis of the experiments and results. Correctly interpret manuals and catalogs. Working independently, individually or in groups, in the laboratory.

Transversal:

1. SELF-DIRECTED LEARNING - Level 3: Applying the knowledge gained in completing a task according to its relevance and importance. Deciding how to carry out a task, the amount of time to be devoted to it and the most suitable information sources.
2. EFFICIENT ORAL AND WRITTEN COMMUNICATION - Level 2: Using strategies for preparing and giving oral presentations. Writing texts and documents whose content is coherent, well structured and free of spelling and grammatical errors.
4. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2: Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.
5. THIRD LANGUAGE. Learning a third language, preferably English, to a degree of oral and written fluency that fits in with the future needs of the graduates of each course.
6. TEAMWORK - Level 3. Managing and making work groups effective. Resolving possible conflicts, valuing working
with others, assessing the effectiveness of a team and presenting the final results.

8. EFFECTIVE USE OF INFORMATION RESOURCES - Level 2. Designing and executing a good strategy for advanced searches using specialized information resources, once the various parts of an academic document have been identified and bibliographical references provided. Choosing suitable information based on its relevance and quality.
