TEACHING METHODOLOGY

Theory

The slides will contribute to guide, strengthen and expand its content both exhibitions in the contact sessions as notes available to the student and recommended books.
The student will have their questionnaires available concerning the theoretical content of each of the topics, exercises and exams from previous years will serve not only for the study and assimilation of the contents, but also for exam preparation and practice.

Practice

the Action Plan will be developed in the classroom as well as case studies and exercises for reflection, concerning the theoretical contents, for the assimilation and application of such content.

The exercises will be available to the student sufficient time to be prepared at home and dedicate class time in their analysis and comments by students and teacher.

The bulk of the practices will be aimed in order to perform work on the launch of an industrial design included in a business plan are considered necessary for the preparation of the student regarding development on their part of practical classes mandatory group.

Evaluation Final Note = Mid term Exam 20% + Final Exam 20% + 60% Nep

NF: Final Note  
N1p: Note 1 partial (mid term Exam)  
Nef: FINAL EXAM  
Nep: Note practical exercises

Note exercises is the arithmetic sum of the following works:

- Individual work 15% + collective 30% + attendance 10% + 5% classroom practices

Note: 30% by collective practical exercises, it is calculated in verse to the following conditions:

- 25% by teacher assessment + 5% peer evaluation, assessment companions as specific instructions ATENEA Rubrics.

Note: 10% for class attendance, it is calculated in verse to the following conditions: 10 if attendance 100%, 8 if attendance 80%, 6 if attendance 60%, 4 if attendance 40%, 2 if attendance 20%, 0 if assistance

**EXAMINATION RULES.**

Compliance is essential supplies 80% of all the work in the classroom, and 100% of individual and collective. The work group assignment for collective work are required.

Reevaluation and Resumption of the Course

Review of assessment tests

In accordance with the UPC examination claim regulations and in the calendar presented by the Professor at the end of each test.

Minimum requirements to qualify for reevaluation

In order to qualify for the reevaluation of this subject, it is essential to be enrolled in the subject and have obtained a final grade between 3.5 and 4.9. In addition, it is necessary to obtain a minimum of 4 out of 10 of the overall grade of the practical exercises with the weighting established in this teaching guide.

The final grade of the subject is calculated with these weights indicated, both in the ordinary test and in the reevaluation. If passed in the ordinary test, since the student will not appear in the minutes as a suspense, it will not be possible to reevaluate. However, if someone wants to stand up for a reevaluation note, they should talk to the teachers in the regular test review. The reevaluation of any test requires the presentation on the day / time of the reevaluation test in the classroom indicated in the test calendar proposed by the teacher.
