Course guide
340079 - DIBA-D5O17 - Basic Design

Unit in charge: Vilanova i la Geltrú School of Engineering
Teaching unit: 717 - DEGD - Department of Engineering Graphics and Design.

Degree: BACHELOR’S DEGREE IN INDUSTRIAL DESIGN AND PRODUCT DEVELOPMENT ENGINEERING (Syllabus 2009). (Compulsory subject).

Academic year: 2022 ECTS Credits: 6.0 Languages: Catalan, Spanish

LECTURER

Coordinating lecturer: Monguet Fierro, Jose Maria
Others: Trejo Omeñaca, Alexandre Monguet Fierro, Jose Maria

DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

Specific:
8. D41. Control of tools related to design processes.
10. D49. Ability to analyze and to synthesize bidimensional and tridimensional forms.
11. D58. Practical knowledge of industrial design methodology.

Transversal:
1. EFFICIENT ORAL AND WRITTEN COMMUNICATION - Level 2. Using strategies for preparing and giving oral presentations. Writing texts and documents whose content is coherent, well structured and free of spelling and grammatical errors.
2. ENTREPRENEURSHIP AND INNOVATION - Level 2. Taking initiatives that give rise to opportunities and to new products and solutions, doing so with a vision of process implementation and market understanding, and involving others in projects that have to be carried out.
3. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.
4. TEAMWORK - Level 2. Contributing to the consolidation of a team by planning targets and working efficiently to favor communication, task assignment and cohesion.
5. EFFECTIVE USE OF INFORMATION RESOURCES - Level 2. Designing and executing a good strategy for advanced searches using specialized information resources, once the various parts of an academic document have been identified and bibliographical references provided. Choosing suitable information based on its relevance and quality.
6. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.

TEACHING METHODOLOGY

- In the theoretical sessions, the contents will be presented and the theoretical bases of the subject, concepts, methods and results will be introduced, illustrating them with convenient examples to facilitate their understanding.
- The practical sessions will alternate between team work sessions, which will consist of statements and guided processes to achieve a result, and sessions of group exposition of concepts, techniques and procedures, for the resolution of exercises and practical work.
- The non-classroom activity is oriented to team work.
LEARNING OBJECTIVES OF THE SUBJECT

- Acquire knowledge on key concepts in creativity and design.
- Acquire knowledge on design-guided innovation.
- Learn to apply techniques of creativity and design in the context of innovation practices
- Promote holistic view of design and creativity in the context of technology and business opportunities.

STUDY LOAD

<table>
<thead>
<tr>
<th>Type</th>
<th>Hours</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours small group</td>
<td>15,0</td>
<td>10.00</td>
</tr>
<tr>
<td>Hours large group</td>
<td>45,0</td>
<td>30.00</td>
</tr>
<tr>
<td>Self study</td>
<td>90,0</td>
<td>60.00</td>
</tr>
</tbody>
</table>

Total learning time: 150 h

CONTENTS

Creativity

Description:
1.1.- Creative teams
1.2.- Creativity techniques
1.3.- Creativity management

Related competencies:
. D49. Ability to analyze and to synthesize bidimensional and tridimensional forms.

Full-or-part-time: 18h
Theory classes: 12h
Laboratory classes: 6h

Design Ontology

Description:
2.1.- Categories and dimensions of design
2.2.- Design methods
2.3.- Design process

Related competencies:
. DS8. Practical knowledge of industrial design methodology.
. D43. Knowledge of design methodology.
. D41. Control of tools related to design processes.

Full-or-part-time: 18h
Theory classes: 12h
Laboratory classes: 6h
Design-led innovation

Description:
Development of the practices associated with the contents of the program following a structure of challenge definition, solution analysis, project work, prototype development and improvement study.

Related competencies:
. D58. Practical knowledge of industrial design methodology.
. D41. Control of tools related to design processes.

Full-or-part-time: 18h
Theory classes: 12h
Laboratory classes: 6h

ACTIVITIES

P1. Challenge definition

Delivery:
Team presentation and report

Related competencies:
07 AAT N2. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.
04 COE N2. EFFICIENT ORAL AND WRITTEN COMMUNICATION - Level 2. Using strategies for preparing and giving oral presentations. Writing texts and documents whose content is coherent, well structured and free of spelling and grammatical errors.
05 TEQ N2. TEAMWORK - Level 2. Contributing to the consolidation of a team by planning targets and working efficiently to favor communication, task assignment and cohesion.

Full-or-part-time: 4h
Theory classes: 4h

P2. Solution analysis

Delivery:
Team presentation and report

Related competencies:
07 AAT N2. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.
04 COE N2. EFFICIENT ORAL AND WRITTEN COMMUNICATION - Level 2. Using strategies for preparing and giving oral presentations. Writing texts and documents whose content is coherent, well structured and free of spelling and grammatical errors.
01 EIN N2. ENTREPRENEURSHIP AND INNOVATION - Level 2. Taking initiatives that give rise to opportunities and to new products and solutions, doing so with a vision of process implementation and market understanding, and involving others in projects that have to be carried out.
06 URI N2. EFFECTIVE USE OF INFORMATION RESOURCES - Level 2. Designing and executing a good strategy for advanced searches using specialized information resources, once the various parts of an academic document have been identified and bibliographical references provided. Choosing suitable information based on its relevance and quality.

Full-or-part-time: 4h
Theory classes: 4h
P3- Project work

**Delivery:**
Team presentation and report

**Related competencies:**
07 AAT N2. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.
06 URI N2. EFFECTIVE USE OF INFORMATION RESOURCES - Level 2. Designing and executing a good strategy for advanced searches using specialized information resources, once the various parts of an academic document have been identified and bibliographical references provided. Choosing suitable information based on its relevance and quality.
05 TEQ N2. TEAMWORK - Level 2. Contributing to the consolidation of a team by planning targets and working efficiently to favor communication, task assignment and cohesion.
01 EIN N2. ENTREPRENEURSHIP AND INNOVATION - Level 2. Taking initiatives that give rise to opportunities and to new products and solutions, doing so with a vision of process implementation and market understanding, and involving others in projects that have to be carried out.

**Full-or-part-time:** 4h
Theory classes: 4h

---

P4- Prototype development

**Delivery:**
Team presentation and report

**Related competencies:**
06 URI N2. EFFECTIVE USE OF INFORMATION RESOURCES - Level 2. Designing and executing a good strategy for advanced searches using specialized information resources, once the various parts of an academic document have been identified and bibliographical references provided. Choosing suitable information based on its relevance and quality.
07 AAT N2. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.
04 COE N2. EFFICIENT ORAL AND WRITTEN COMMUNICATION - Level 2. Using strategies for preparing and giving oral presentations. Writing texts and documents whose content is coherent, well structured and free of spelling and grammatical errors.
05 TEQ N2. TEAMWORK - Level 2. Contributing to the consolidation of a team by planning targets and working efficiently to favor communication, task assignment and cohesion.
01 EIN N2. ENTREPRENEURSHIP AND INNOVATION - Level 2. Taking initiatives that give rise to opportunities and to new products and solutions, doing so with a vision of process implementation and market understanding, and involving others in projects that have to be carried out.

**Full-or-part-time:** 4h
Theory classes: 4h
P5- Improvement study

Delivery:
Team presentation and report

Related competencies:
06 URI N2. EFFECTIVE USE OF INFORMATION RESOURCES - Level 2. Designing and executing a good strategy for advanced searches using specialized information resources, once the various parts of an academic document have been identified and bibliographical references provided. Choosing suitable information based on its relevance and quality.
07 AAT N2. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.
04 COE N2. EFFICIENT ORAL AND WRITTEN COMMUNICATION - Level 2. Using strategies for preparing and giving oral presentations. Writing texts and documents whose content is coherent, well structured and free of spelling and grammatical errors.
02 SCS N2. SUSTAINABILITY AND SOCIAL COMMITMENT - Level 2. Applying sustainability criteria and professional codes of conduct in the design and assessment of technological solutions.
05 TEQ N2. TEAMWORK - Level 2. Contributing to the consolidation of a team by planning targets and working efficiently to favor communication, task assignment and cohesion.

Full-or-part-time: 4h
Theory classes: 4h

GRADING SYSTEM

A continuous evaluation model will be applied in order to monitor the acquired knowledge, team work and individual work. The formative evaluation requires the attendance of the student at least 90% of the practical and laboratory sessions. The final grade (NF) will be obtained from the following formula: 
NF = 0.2*NI + 0.5*NG + 0.3*NE
NI = Individual grade (participation, attendance, attitude...) - (NOT re-evaluable)
NG = (0,25*NG1 + 0,5*NG2 + NG3 + 1.5*NG4 + 2*NG5) /5.25 [NGx is the grade for each of the group activities.] - (NOT re-evaluable)
NE = Final exam score - (NOT re-evaluable)

EXAMINATION RULES.

It is essential to attend and actively participate in the classroom and to have a critical and active attitude. The practices must be presented according to the criteria specified in each case.
