340374 - ESIN-I3O23 - Information Structure

Coordinating unit: 340 - EPSEVG - Vilanova i la Geltrú School of Engineering
Teaching unit: 723 - CS - Department of Computer Science
Academic year: 2018
Degree: BACHELOR'S DEGREE IN INFORMATICS ENGINEERING (Syllabus 2010). (Teaching unit Compulsory)
ECTS credits: 6
Teaching languages: Catalan

Teaching staff
Coordinator: Bernardino Casas Fernández, Jordi Esteve Cusiné
Others: Bernardino Casas Fernández, Jordi Esteve Cusiné

Opening hours
Timetable: See the current timetable in the EPSEVG people list:
https://web3.epsevg.upc.edu/coneix-lepsevg/directori-epsevg

Prior skills
Proficiency of imperative object-based programming techniques:
* Classes
* Objects
* Methods
* How to pass parameters
* Recursion

Know well at least one object-oriented imperative language, preferably C++.
Mathematical and algorithmic maturity.

Requirements
Have passed PRO1 or at least being enrolled.

Degree competences to which the subject contributes

Specific:
1. CEFB3. Ability to understand and to have a good command of discrete, logical, algorithmically mathematics and computing complexity and its application to automatical treatment of information by means of computational systems and its application to solve engineering problems.
2. CEFB4. Basic knowledge of use and computer programming, as well as of operating systems, data base and generally informatic programs with engineering applications.
3. CEFB5. Knowledge of informatic systems, its structure, function and interconnection, as well as fundamentals of its programming.
4. CEFC6. Basic knowledge and application of algorithmic processes, informatic techniques to design solutions of problems, analyzing if proposed algorisms are apt and complex.
5. CEFC7. Knowledge, design and efficient use of data types and structures the most appropriate to resolve problems.
6. CEFC8. Ability to analyze, to design, to construct and to maintain applications in a well built, secure and efficient way choosing the most adequate paradigms and languages.
340374 - ESIN-I3O23 - Information Structure

Transversal:
7. SELF-DIRECTED LEARNING - Level 2: Completing set tasks based on the guidelines set by lecturers. Devoting the time needed to complete each task, including personal contributions and expanding on the recommended information sources.
8. TEAMWORK - Level 1. Working in a team and making positive contributions once the aims and group and individual responsibilities have been defined. Reaching joint decisions on the strategy to be followed.

Teaching methodology
The methodological approach consists in:
- Presentation in classroom, in participatory classes, of concepts and procedures associated with the subjects.
- Individually or in team exercises inside and outside the classroom.
- Completion of individually practices (activities) or in a team practices (project) inside and outside the classroom.
- Individual study, tests and exams.

Learning objectives of the subject
See Catalan version.

### Planning of activities

| Activity 1 | Hours: 3h 30m  
Guided activities: 0h 30m  
Laboratory classes: 3h |
|-------------|------------------------------------------------|
| **Description:**  
See Catalan version  |
| **Support materials:**  
See Catalan version.  |
| **Descriptions of the assignments due and their relation to the assessment:**  
See Catalan version.  |
| Activity 2 | Hours: 3h 30m  
Guided activities: 0h 30m  
Laboratory classes: 3h |
| **Description:**  
See Catalan version  |
| **Support materials:**  
See Catalan version.  |
| **Descriptions of the assignments due and their relation to the assessment:**  
See Catalan version  |
| Activity 3 | Hours: 3h 30m  
Guided activities: 0h 30m  
Laboratory classes: 3h |
| **Description:**  
See Catalan version.  |
| **Support materials:**  
See Catalan version.  |
| **Descriptions of the assignments due and their relation to the assessment:**  
See Catalan version.  |
| Control 1 | Hours: 2h  
Theory classes: 2h |
| **Description:**  
See Catalan version.  |
| **Descriptions of the assignments due and their relation to the assessment:**  
See Catalan version.  |
### Control 2

<table>
<thead>

### Project

<table>
<thead>
<tr>
<th>Hours: 27h</th>
<th>Laboratory classes: 7h</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Description:</strong></td>
<td>Self study: 20h</td>
</tr>
<tr>
<td><strong>Support materials:</strong></td>
<td>See Catalan version.</td>
</tr>
</tbody>
</table>

**Descriptions of the assignments due and their relation to the assessment:**
See Catalan version.

### Qualification system

C1 = Control 1 (partial). Individual written test (2 hours).
C2 = Control 2 (final). Individual written test (3 hours) which integrates knowledge and skills of the entire course.
Act = Result of the activities performed.
Pro = Result of the project.

Theory Qualification: QT = maximum value (0.40*C1+0.60*C2, C2)

Final Qualification: QF = 0.5*QT + 0.2*Act + 0.3*Pro

Project (Pro): It is evaluated from: the execution of the program, the delivered code, and a Validation Test (PV). The Validation Test can be done through a face-to-face interview, or in the Final Control of the subject.

The realization and presentation of the project will be a necessary condition for passing the subject. Otherwise, the final grade for the entire subject will be "Not Presented".

You can reevaluate Control 2 (final).

### Regulations for carrying out activities

Written tests (Control 1 and 2) and Activities are on-site and individual.

The project is carried out in teams of two people. It is delivered in a non-contact manner and is evaluated both face-to-face (Validation Trial) and non-contact from the documentation submitted.
