Degree competences to which the subject contributes

Specific:
1. Master the wide range of professional tools in the sector for developing all kinds of digital content.
2. Schematically and visually represent complex concepts, ideas and/or data based on personal skills and external references, in order to convey attractiveness, originality and creativity.

General:
3. Apply the techniques of representation, spatial conception, standardisation and computer-aided design; knowledge of the basics of industrial design.

Transversal:
1. SELF-DIRECTED LEARNING. Detecting gaps in one's knowledge and overcoming them through critical self-appraisal. Choosing the best path for broadening one's knowledge.
2. EFFICIENT ORAL AND WRITTEN COMMUNICATION. Communicating verbally and in writing about learning outcomes, thought-building and decision-making. Taking part in debates about issues related to the own field of specialization.
3. EFFECTIVE USE OF INFORMATION RESOURCES. Managing the acquisition, structure, analysis and display of information from the own field of specialization. Taking a critical stance with regard to the results obtained.

Learning objectives of the subject

1. Make the proposed exercises applying the right methodology and design and typography procedures.
2. Improve the images visualization with the image processing processes.
3. Design graphic user interfaces.
4. Understand the concepts involved and make the related exercises and practices to the graphic communication.
5. Analyse and build images.
6. Make the jobs in the right time, work with the right fonts according to the guides given by the teacher.
7. Use strategies for preparing and make presentation speeches and redact documents and texts with the right contents, well structured and a good level in the language usage.
8. Recognise the own necessities of information and use the available services and collections for designing final jobs.
. Being able to identify the different parts of an academic document and organise the bibliography.
. Plan the speeches, and answer in a right way the questions relating the visual communication.
