Degree competences to which the subject contributes

- Know the historical and social context in which photography is currently framed.
- Know the role of photography in the field of digital art.
- Acquire capacity for analysis and reflection before a photographic project.
- Solve problems of camera and lighting settings to adapt to the different situations of a photographic or audiovisual production.
- Know how to choose instruments for capturing images and lighting with the design and features appropriate to a specific order.
- Understand and know how to apply the process of capturing and post-producing images in the realization of photographic productions under study, in an interactive location, interior and exterior, for both print and electronic media.
- Know how to plan the most appropriate workflow in the different phases of the structure of a photographic or audiovisual production.

Teaching methodology

Theoretical sessions and practical sessions are planned.
The theoretical class sessions are divided, in general, into four activity strips:
1. Resolution of doubts regarding the exercises proposed in the previous session.
2. Review of the exercises resolved
3. Explanation of new content
4. Explanation of the next exercise and complementary materials

These activity bands are modulated according to the complexity of the exercises and the corresponding contents.

### Description:
- **Exercise P01**
  - Exercise in which a creative challenge is posed to the student, from the "do something with something" assignment.
- **Exercise P02**
  - Exercise in which the concept of photography and the representation of the "I" will be worked from a commission based on "making a self-portrait with and without a camera".
- **Exercise P02.b**
  - Exercise in which the depth of field will be worked from the review of practice P02.
- **Exercise P03**
  - Tell two stories, one true the other false. Each story is told in 1, 3 or 5 photographs. Present each one in a PDF, with a text paragraph of maximum 100 words, without revealing which is the true story and which is the false one.
- **Exercise P04**

### Specific Objectives:
- Apply the concepts worked on in topic 1.1
- The concepts worked on in topics 1.1 and 1.2 will be applied
- Apply the concepts worked on in topic 2.2
- Apply the concepts worked on topic 1.3
# Description:
Create a photographic series or activist-style movie, on a topic that matters to you

</tr>
<tr>
<td></td>
<td>Self study: 16h</td>
</tr>
</tbody>
</table>

## Specific objectives:
Apply the concepts worked on in topic 2.6 and in the rest of the subject.
Qualification system

The final grade of the subject will be calculated from the following exams and exercises, applying their corresponding weights:

- 9 practical exercises - 30%
  The exercises will be developed throughout the course and will have weights of 2% or 5%, depending on the exercise.
- 1 Partial exam - 15%
- 1 Final Exam - 20%
- 1 Final Work - 25%
- Participation and learning attitude - 10%

Students who do not pass the subject through continuous assessment, may be submitted to the reevaluation exam, provided they do not have an NP grade. This exam will reevaluate the partial and final exams (35% of the final grade of the subject).

Regulations for carrying out activities

The practice exercises are explained and started during class time and are completed outside the planned class schedule, following the instructions indicated in the corresponding "Practice Sheet" document and the instructions given in class. The practical exercises will be delivered using the classroom delivery space of the subject in the Virtual Campus, following the indications and deadlines described in the corresponding practice document. Practices delivered after the deadline will not be accepted and the correct management of the documentation provided is an aspect related to the competences being, therefore, subject to evaluation.

The evaluation of the practices does not only involve the resolution of the proposed exercises, but also the defense that is made of the results when the teacher so requires.

Any incident that does not allow the practice to be resolved within the indicated period will be notified to the corresponding teacher. If the cause is considered justified, a new date and delivery method will be proposed to the student.
