Qualification system

The course will be graded through:
- Three partial tests that will weigh 20%, 15%, and 15%, add, together represent 50% of the grade of the course.
- A project made in teams that will weigh 30% of the global mark, which will be presented and evaluated through continuous deliveries and partial evaluations.
- The remaining 20% of the mark corresponds to exercises / documents carried out by other students in the analysis / assessment (guided) exercises in which they must demonstrate the criterion of judging the degree of correction.

Final exam: only for those who do not pass the subject through the regular evaluation due to a real serious problem (such as an illness or surgical intervention). The problem must be justified by presenting proper documents, for instance, with a medical report.

Evaluation methods: the teaching staff that will assess each of the activities mentioned above, and will calculate a weighted average using the weights indicated for each activity.

There is NO reassessment in this subject.

Regulations for carrying out activities

For each assessment activity, the norms are published in ATENEA.
