#### OBJETIVOS DE APRENDIZAJE DE LA ASIGNATURA

The main aim of this course is to develop participants' ability to express themselves in English, both orally and in writing, on subjects related to the contents of the MSc in Photonics as a whole. It is primarily aimed at those with an upper-intermediate or early advanced level of English as a foreign language (Common European Framework B2-C1).

It is envisaged that participants will primarily want:

- to gain confidence and oral fluency, especially when speaking in public;
- to be able to write the type of texts most commonly needed in an academic context (articles, abstracts, reports, posters, applications and proposals, etc.).

For this reason, the course will require the active participation of the students. However, it will also include the grammar and vocabulary necessary to improve their productive skills

#### CONTENIDOS

(CAST) -Presentation skills

(CAST) -Writing skills

(CAST) -Grammar and vocabulary

## **SISTEMA DE CALIFICACIÓN**

---

- attendance and participation;
- weekly written assignments;
- oral presentations throughout the course;
- a short final written project

## **NORMAS PARA LA REALIZACIÓN DE LAS PRUEBAS.**
