DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES
Specific:
CEEORG2. Ability to design, develop and apply analytical methods (quantitative methods, statistical models and decision tools) for making strategic, tactical and operational decisions in organizations.
CEEORG3. Ability to analyze, diagnose, design solutions and manage complex systems that integrate various resources of an organization keeping in mind the business environment.

TEACHING METHODOLOGY
The teaching methodology is divided into three parts:
• Theory classes
• Practical classes
• Self-study for doing exercises and activities.

In the theory classes, teachers will introduce the theoretical basis of the concepts, methods and results and illustrate them with examples appropriate to facilitate their understanding.

In the practical classes (in the classroom), teachers guide students in applying theoretical concepts to solve problems, always using critical reasoning. We propose that students solve exercises in and outside the classroom, to promote contact and use the basic tools needed to solve problems.

Students, independently, need to work on the materials provided by teachers and the outcomes of the sessions of exercises/problems, in order to fix and assimilate the concepts. The teachers provide the curriculum and monitoring of activities (by ATENEA).

LEARNING OBJECTIVES OF THE SUBJECT
This course is focused on the study of the different costs of companies. It is about obtaining the knowledge that allows making decisions based on the design and analysis of different business cost models.

GRADING SYSTEM

The final grade of the course depends on the following evaluation acts:

Activity 2 problems and exercises, weight: 10%
Activity 3 (partial exam), weight: 30%
Activity 4 (final exam), weight: 30%
Activity 5 (practices), weight: 30%

The unsatisfactory results of activity 3 (partial exam) can be redirected by a written test to make the day and time set for the final exam. All students enrolled can access this test. The test will have a score between 0 and 10 points. The grade obtained by the application of the renewal will replace the initial qualification of the partial, as long as it is higher.

For those students who meet the requirements and take the re-evaluation exam, the grade of the re-evaluation exam will replace the marks of all the evaluation acts that are face-to-face written tests (controls, midterms and final exams) and will be maintained the qualifications of practices, works, projects and presentations obtained during the course.

If the final grade after the re-evaluation is less than 5.0, it will replace the initial one only if it is higher. If the final grade after the re-evaluation is greater than or equal to 5.0, the final grade for the course will be approved 5.0.
