Total learning time: 125 h
Description:
Projects carried out by the research group are presented (such as Urban Sprawl analysis, the study of Polycentrism and sub, City Coexistence as a venue for the development of new methodologies for the evaluation of the city...). The student must join one so tutored. Is experienced in this way, work within a research team, promoting collective participation and deepening the practical and concrete learning research methodologies.

Specific objectives:
The main objective is to introduce students to research work on the subject fields of the line, providing the theoretical tools needed to tackle a research project, as a develop case studies by incorporating the person to some of the projects developed by the research group responsible of the line.

Full-or-part-time: 125h
Theory classes: 15h
Laboratory classes: 30h
Self study: 80h

GRADING SYSTEM

Brief reading controls and practices, will take place during the classes, in which specific aspects of the contents will be evaluated. Presentations on specific issues will be evaluated in debate format. End jobs or workshops, individual and/or group, will be developed to be delivered after finish of classes.
Also it is considered at least 80% of class attendance.

Continuous telematic evaluation
In online teaching situations, continuous assessment will be carried out synchronously and asynchronously by the means established by the University and the School, with a periodic record of academic activity through submissions, forums, questionnaires or any other means facilitated by the Atenea platform, or the alternatives provided to the teaching staff. In the situations in which this telematic teaching is a product of face-to-face teaching that has already begun, or for questions of extra-academic order, the changes in the weightings or regular control systems of the teaching will be communicated in detail to all students by the Athena of each subject.

Telematic final evaluation
If the continuous telematic evaluation is not positive, a second evaluation can be carried out, which will consist of a final test of a global nature in telematic format that will be established in accordance with the criteria of the professor responsible and the media and ICTs provided by the University or School.

The measures for adaptation to non-classroom teaching will be implemented in accordance with the criteria of ICT security and personal data protection to ensure compliance with the legislation on Personal Data Protection (RGPD and LOPDGDD)
