REQUIREMENTS
There are no requirements.

DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

Specific:
3. Knowledge and skills to organize and manage companies.
4. Knowledge and skills of strategy and planning applied to different organizational structures.
5. Apply knowledge and solve problems in new or unfamiliar environments within broader and multidisciplinary contexts.

Transversal:
6. TEAMWORK: Being able to work in an interdisciplinary team, whether as a member or as a leader, with the aim of contributing to projects pragmatically and responsibly and making commitments in view of the resources that are available.

Basic:
1. Improve technical communication of results.

TEACHING METHODOLOGY
The teaching methodology is divided into three parts:

- Face-to-face Sessions of exposure of the contents.
- Face-to-face Sessions of practical work (exercises and problems).
- Autonomous work of study and realization of exercises and activities.

In the sessions of exposure of the contents, the teaching staff will introduce the theoretical bases of the terms, concepts, methods and results, illustrating them with examples appropriate to facilitate their understanding.
In the sessions of practical work in the classroom, the teacher will guide the students in the application of theoretical concepts to problem solving, a basis for critical reasoning at all times. Will propose exercises that the students solve in the classroom and outside the classroom, in order to facilitate the contact and the use of the basic tools necessary for the resolution of problems.
The students, autonomously, has to work the material provided by the teaching staff and the results of the working sessions-problems in order to assimilate and fix concepts.

LEARNING OBJECTIVES OF THE SUBJECT
STUDY LOAD
