### Qualification system

The mark of the course is obtained from the continuous assessment.

It consists of five activities and a final exam.

The final mark (F) is obtained from the exam mark (E) and the activities directed (AD)

\[ F = 0.7E + 0.3AD \]

The maximum score assigned to each activity will be the same.

### Regulations for carrying out activities

Failure to perform a laboratory or continuous assessment activity in the scheduled period will result in a mark of zero in that activity.
