DEGREE COMPETENCES TO WHICH THE SUBJECT CONTRIBUTES

Generical:
1. The ability to communicate effectively orally and in writing.
2. The ability to summarise and think critically. The ability to adapt to new technologies.

TEACHING METHODOLOGY

The teaching method consists in the professors presenting the topics using the materials that are available on the ATENEA virtual campus. The materials contain a large number of links to web pages belonging to companies and public administrations on the topics. Students must complete the information given in class with the information on these web pages.

Exercises are generally completed in class in small groups and are subject to continuous assessment.
Field trips organised to study real cases are also subject to continuous assessment.

LEARNING OBJECTIVES OF THE SUBJECT

1. To present water, one of the natural resources that is most relevant and most current, from a global perspective.
2. To explain various domestic and industrial forms of water treatment, with an emphasis on optimising its use.
3. To introduce students to the study of groundwater.
