CONTENTS

1. Economia internacional. Concepto de desarrollo

Description:
International flows. Balance of payments and concepts that make it up. Theories of international trade. Flows of goods and money. Consequences of trade and services surpluses and deficits. The financing of international exchanges. International economics and effects on development.

Specific objectives:
Know the context of the international economy. Define what the balance of payments is and how it reflects a country’s relations with the outside world. Relationship between trade flows and development.

Full-or-part-time: 8h
Theory classes: 4h
Practical classes: 4h

2. Theories on development

Description:
Classical, neoclassical and Keynesian models. Dependency and structural theories. Theories of modernization. Democracy and development. Critical analysis of models and development cases

Specific objectives:
Know the different theories that explain the development processes.

Full-or-part-time: 6h
Theory classes: 3h
Practical classes: 3h

3. Sources and models of economic development

Description:

Specific objectives:
Discern the possibilities of applying different development models. The consequences that derive from it and through the analysis of cases, its adaptation to different realities.

Related activities:
Activity: Comment in class on different articles about development models

Full-or-part-time: 6h
Theory classes: 3h
Practical classes: 3h
4. Private investment. Business and public services

Description:

Specific objectives:
Analyze investment flows and their consequences on the real economy. Understand the concept of concessions and their links with public services.

Full-or-part-time: 3h
Theory classes: 3h

5. International Aid

Description:

Specific objectives:
Know the concept and the figures that move around the international cooperation, and what are its protagonists.

Related activities:
Analysis of a cooperation project: Approach and evaluation.

Full-or-part-time: 9h
Theory classes: 5h
Practical classes: 4h

6. International instruments and agendas

Description:
Instrumentos y agendas en relación a la cooperación y la financiación para el desarrollo. Los objetos por desenvolpament del Milenio. El consenso de Monterrey. La declaración de París. El plan de acción de Accra. Instrumentos y agendas en España y Europa.

Specific objectives:
To know the different international agreements that condition the cooperation policies.

Full-or-part-time: 3h
Theory classes: 3h

7. Modalities and instruments

Description:

Specific objectives:
Discuss the different instruments used in international cooperation and how it influences the results of this cooperation.

Full-or-part-time: 3h
Theory classes: 3h
8. Evaluation and effectiveness of development aid

Description:

Specific objectives:
Know the methods that allow to evaluate the effectiveness of the development aid and the indicators that can be used.

Related activities:
Análisis de un proyecto de cooperación: Planteamiento y evaluación.

Full-or-part-time: 4h
Theory classes: 2h
Practical classes: 2h

9. International financing

Description:

Specific objectives:
Analyze the influence of funding on cooperation and development of different countries.

Full-or-part-time: 3h
Theory classes: 3h

ACTIVITIES

A1. ANALYSIS OF A COOPERATION PROJECT. APPROACH AND EVALUATION

Description:
Look for a cooperation project and evaluate it. Present the result in public and discuss it in class.

Specific objectives:
Discuss the effectiveness of development projects.

Material:
Bibliography on cooperation.

Delivery:
A Power Point presentation

Full-or-part-time: 3h
Theory classes: 3h
Practical classes: 3h
A2. COMMENT IN CLASS DIFFERENT REALITIES ON DEVELOPMENT MODELS

Description:
Work individually or in groups on different articles that talk about development models.

Specific objectives:
Discuss different opinions about development models.

Material:
Short articles that talk about development.

Delivery:
A critical summary of the article that has been worked on and its relationship with the other articles. Example of a specific territory.

Full-or-part-time: 3h
Practical classes: 3h

A3. ANALYSIS OF PAYMENT BALANCES OF DEVELOPED AND DEVELOPING COUNTRIES

Description:
Find balance of payments data and explain it in economic terms. Relate it to development.

Specific objectives:
Analyze the consequences of imbalances in balance of payments.

Material:
Balance of payments statistics.

Delivery:
A short report with the main conclusions.

Full-or-part-time: 3h
Theory classes: 3h

GRADING SYSTEM

EV1 Written test of knowledge control (PE).
EV2 Oral knowledge control (PO) test.
EV3 Work done throughout the course (TR). 50%
EV4 Attendance and participation in classes and laboratories (AP).
EV5 Performance and quality of group work (TG) 50%
