

Spinoffs & Startups at Barcelona Deep Tech Summit 2024

Barcelona, 5 – November 2024

Fira de Barcelona Gran Via, Hall 3

Exhibitors | UPC Spinoffs at Barcelona Deep Tech Summit 2024

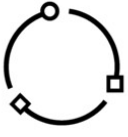

Tuesday 5 November

	Miwendo	miwendo.com/
	Contact: Marta Guardiola (marta@miwendo.com)	
	Medical device that integrates microwave technology with colonoscopy in order to improve the prevention, diagnosis and knowledge of colorectal cancer.	
Exhibition: Barcelona Deep Tech Node		Spinoff

	TeknoCEA	teknocea.cat/
	Contact: Marc Pagès (marc.pages@teknocea.cat)	
	Custom power electronics components, systems and services to companies and research labs in power electronics, automation and power systems.	
Exhibition: Barcelona Deep Tech Node		Spinoff

Wednesday 6 Nov | Thursday 7 Nov

	Power DIW	powerdiw.com/
	Contact: Andrea Gusano (agusano@cimupc.org)	
	Expanding the horizons of custom manufacturing with an infinite spectrum of materials and advanced design through most innovative additive solutions.	
Exhibition: Barcelona Deep Tech Node		(Pre)Spinoff

	Process Talks	processtalks.com/
	Contact: Josep Carmona (josep@processtalks.com)	
	Conversational, AI and Natural Language Processing powered process automation & integration technology that allows virtually anyone (and specially, SMEs) to automate operations and tedious & repetitive tasks.	
Exhibition: Barcelona Activa		Spinoff

	Virmedex	virmedex.com/
	Contact: Michaela Bagnati (micaela.bagnati@virmedex.com)	
	Video Games, VR, and AI for Healthcare Training.	
Exhibition: Barcelona Deep Tech Node		Spinoff

Exhibitors | Other UPC startups & spinoffs at Barcelona Deep Tech Summit 2024

Tuesday 5 November

Geoskop | geoskop.tech/

ESA BIC | Startup

Minimizing climate change's impact on your business with down-to-earth long-range predictions and proprietary algorithms

Point Pressure | pointpressure.com/

Startup

Point Pressure is developing a medical device to help patients with chronic diseases or conditions experiencing spasticity through a non-invasive physical treatment.

Wednesday 6 Nov | Thursday 7 Nov

Electra Sphere Innovations | electrasi.com/

Startup

Geoskop | geoskop.tech/

ESA BIC | Startup

Minimizing climate change's impact on your business with down-to-earth long-range predictions and proprietary algorithms

Nanochronia | nanochronia.com/

Spinoff (UPC + ITQ | CSIC + UPV + URV)

Enabling the transition to a green carbon-free society by detecting hydrogen and related gases with our next-generation graphene based nanosensors.

TracksCO2 | tracksco2.com/

ESA BIC | Startup

In a critical era of rising CO2 emissions, we drive corporate change by urging companies to minimise their carbon footprint.

Y Plasma | yplasma.tech/

ESA BIC | Startup

Patented plasma actuator technology, originally developed for space propulsion, which it aims to adapt for a variety of earth-based uses.

—

Qilimanjaro Quantum Tech | qilimanjaro.tech/

BSC | Spinoff

Qilimanjaro is a full-stack quantum computing company that aims at maximising current technology capabilities to provide practical quantum advantage in a shorter time frame by following a unique strategy.

Shinephi

ICFO | (Pre)Spinoff
