Apply for a place on a master's degree at the UPC

1. Consult the official master’s degree programme on our website

2. A master’s degree is a postgraduate qualification that allows you to specialise in a specific area of knowledge. It is the postgraduate equivalent of a bachelor’s degree and takes a minimum of two years to complete. The UPC master’s degrees fall under the following academic areas:

3. Study at the UPC

4. Postgraduate Courses

5. Master’s degrees

6. Master’s degrees are grouped into the following academic areas:

7. Study at the UPC

8. Further information

9. Online enrolment

10. The UPC has made available to

11. The UPC has agreements with many other institutions.

12. Contact your national authorities for any questions you may have.
Apply for a place on a master's degree at the UPC

1. Study at the UPC

UPC offers a wide range of Master's degrees in Science and Technology fields. The UPC is ranked among the top universities in the world for its excellence in research and teaching. The university offers a variety of programs that cater to different needs and preferences.

2. Further information

For more information on the programs offered by the UPC, please visit the following websites:

- www.upc.edu
- www.mastersdegrees.upc.edu
- www.upc.edu/sri/en/students
- www.upc.edu/en/masters/fees-grants
- www.upc.edu/slt/en/reception
- www.upc.edu/en/masters/countries
- www.upc.edu/en/masters/shrink

3. International students

International students are welcome at the UPC. The university offers various programs and services to support their academic and personal needs. The UPC has an International Office dedicated to assisting international students.

4. Medical insurance

All students at the UPC are covered by an insurance policy that covers medical expenses. Students are encouraged to consult their insurance provider for more information.

5. Medical insurance claims

Students can submit claims for medical expenses through the university's insurance provider. The process is straightforward and can be completed online.

6. Further information

For more information on medical insurance claims, please contact the International Office at international@upc.edu.

7. Visa requirements

In order to apply for a visa, students must follow the requirements set by the Spanish embassy or consulate. International students should visit the following web page for more information:

- www.upc.edu/sri/en/students/resahousing

8. Assistance with the visa application

The International Office at the UPC can provide assistance with the visa application process. Students should contact the office for more information.

9. Study periods

The UPC offers a variety of study periods, including full-time and part-time options. Students can choose the study period that best suits their needs.

10. Doctoral Programmes

The UPC offers various doctoral programmes in Science and Technology fields. Students interested in pursuing a doctoral degree should contact the relevant departments for more information.

11. International double-degree agreements

The UPC has international double-degree agreements with a range of institutions worldwide. Students interested in these programmes should contact the International Office for more information.

12. Research assistance

The UPC offers research assistance for students interested in pursuing research degrees. Students can contact the relevant departments for more information.

depending on the students' language levels and the learning objectives. Master's degrees are taught in Catalan, Spanish or English, and the information can be found at www.upc.edu/en/masters/fees-grants. Successful candidates must pay a fee of €300 to confirm admission, which is lower than the standard price per credit: €77.19 (academic year 2019-2020). A total study load of 60, 90 or 120 ECTS credits is required. These fees are valid at www.mastersdegrees.upc.edu, and more information about admissions, pre-enrolment, enrolment and fees can be found at www.upc.edu/en/bachelors www.upc.edu/en/masters www.doctorat.upc.edu/en.

Requirements and criteria may be set for given master's degrees. If the qualification has not been homologated, the UPC will verify that the course of study corresponds to a level of education equivalent to a university degree. Holders of a qualification issued by a university in a country that does not belong to the EHEA, or holders of a Spanish official bachelor's degree (or equivalent) with at least two years of a training course leading to an official degree in a specific field, may apply. The UPC will verify this requirement. Pre-enrolment is based on the presentation of information that demonstrates the candidate’s eligibility and the available resources. Fees, grants and financial aid are applied to the standard price per credit. For students enrolled in the Technical University of Catalonia (UPC) Master's degrees, they are calculated as follows: €77.19 (academic year 2019-2020). There are also additional fees for applications and other purposes. Other than admission to the master's degree, the master's degree (licenciatura), engineering degree (enginyeria/ingeniería), architecture, and Mathematical Engineering (MAMME) are awarded under previous regulations: pre-EHEA degree (llicenciatura), engineering degree (enginyeria/ingeniería), and licenciatura, respectively. The UPC will verify the pre-requisites and requirements. Language requirements are set for each master's degree.
