</table>
Enrolment fees for master's degrees range from €41.17 to €65.87 (2017). These fees are valid for one academic year and include access to teaching materials, the possibility to attend all courses and the right to attend public exams. Enrolment fees do not cover the costs of the study materials. The price may vary depending on the master's degree programme.

There are two pre-enrolment periods: January to July (for the autumn semester) and August to September (for the spring semester). In order to enrol in a master's degree programme, candidates must have a degree that is equivalent to a Spanish official university degree and have met the admission requirements. More details can be found in the master's degree websites.

Admission requirements

Holders of a Spanish official university qualification or an official Spanish master's degree and that the qualification obtained corresponds to a level of education equivalent to an official degree of a level different from the European Higher Education Area (EHEA). If the qualification has not been homologated, the UPC will verify the qualifications and the equivalence with an EHEA qualification.

Access requirements

Holders of a Spanish official bachelor's degree (or equivalent) in which it was awarded. This access route in no way implies recognition or validation of any qualification.

For more information about grants and financial aid and other ways of funding doctoral study: see www.doctorat.upc.edu/en.
