

Study at the UPC

UPC schools and accomodation

UPC schools are located in Barcelona and nearby towns: Castelldefels, Manresa, Sant Cugat del Vallès, Terrassa and Vilanova i la Geltrú.

The UPC recommends **two platforms** which help international students look for accommodation: **HousingAnywhere and Uniplaces.** The company BCU Housing can also help you to find a room

International students should visit the following web page for information on preparing for their stay at the UPC: www.upc.edu/sri/en/students

Visas

or a flat in Barcelona.

Non-EU nationals whose visit exceeds three months must apply for a student visa—not a tourist visa—at the Spanish embassy or consulate in their home country. If the duration of the course of study in Spain is less than six months, the embassy may issue a student visa specifying 'for a course of study lasting a total of 180 days'. With this type of visa you will not be eligible for a student card and you will not be allowed to extend your stay. If the duration of the course of study in Spain is more than six months, the embassy may issue a long stay student visa. You must also take into account that many embassies and consulates may take a minimum of three months to issue a visa.

Medical insurance

Regarding medical insurance, **EU nationals** who are covered by the public health service must apply for the **European Health Insurance Card** in their home country before travelling.

Students from other countries must enquire whether there is an agreement between the healthcare systems of the home country and Spain. If there is such an agreement, you must apply in your home country for a certificate that allows you to benefit from public healthcare in Spain if you need emergency care. Please note that only medical emergencies are covered in this case and not any other medical problem.

In order to apply for a visa, the Spanish embassy or consulate will require you to have **private insurance** that covers any medical expense during your stay in Spain. The UPC recommends the insurance policy "OnCampus Estudia".

The structure of university qualifications

Bachelor's degrees

See the bachelor's degrees taught at the UPC at: www.upc.edu/en/bachelors

Some bachelor's degrees are taught on different UPC campuses, all of which are in the province of Barcelona. Consider which school it is taught at when you choose your degree.

Pre-enrolling and applying for a place:

The pre-enrolment and admissions process for all Catalan public universities is centralised through the Catalan government, the Generalitat de Catalunya, via the online application ACCESNET (online pre-enrolment). See the calendar and procedure at: http://universitats.gencat.cat/en/preinscripcions

When you pre-enrol, you must attach the documents required, which will depend on your admission route. See the admission routes at: www.upc.edu/en/bachelors/access-and-admission

As an international student, you will generally be admitted by one of the following admission routes:

- If you are a student from the European university system or that of any country that has signed a reciprocity agreement with Spain, you must obtain a credential that is equivalent to your admission mark for the Spanish university system. The credential is an admission mark of up to 10 points. Get the credential on the National Distance Education University (UNED) website. Find out how to improve your mark by up to 4 points from the UNED.
- If you are a student from a university system that does not have an agreement with Spain, you must apply for the homologation of your degree through the Spanish embassy or consulate and take university entrance examinations, whether at a Spanish university or through the UNED.

See detailed information on other admission routes at: https://universitats.gencat.cat/en/acces-universitat/accessegons-perfils-estudiants/estudiant-sistema-educatiu-estranger/

Once your documents and choice of programme/school/university on ACCESNET have been received, you will be assigned a place at university. Your final assignation will be based on your marks: a higher score makes it more likely that you will be awarded a place on your first-choice degree. Once you have accepted the assignation in the computer application, your chosen university will send you information on enrolment.

Further information on the procedure is available at:

http://studyincatalonia.gencat.cat/en/proces-admissio/passos-accedir-universitats

Master's degrees

See the master's degrees taught at the UPC at: www.upc.edu/en/masters

Master's degrees are classified by knowledge area. Specific information on each master's degree is available in the programme's fact sheet: description, curriculum, start date and duration, language of instruction, timetables, fees and grants, professional opportunities, etc.

Pre-enrolling and applying for a place:

To apply for admission to a master's degree, you must be in possession of one of the following:

- A university degree awarded in a country in the European Higher Education Area or an officially recognised degree.
- A university degree that makes you eligible for admission to a master's degree in your country. In this case, the UPC will verify its equivalence.

Some official master's degree courses may have specific admission requirements and criteria.

All programmes start in September or October, and some also start in February. About six months before classes begin, the pre-enrolment period for applying for a place on the programme opens.

To apply for admission, follow the link to the pre-enrolment application in the fact sheet for the programme. You will have to register for the application and use a valid e-mail address as your username. You will then receive a password with which you can log in to the application and apply. You will need to provide personal and academic details and supporting documents, and pay a fee of $\leqslant\!30.21$, for your application to be reviewed. If you have applied for a grant and need a letter of admission, you must let us know during the process.

You will receive an e-mail with the decision on your admission. Once you have received it, you must confirm your application in the pre-enrolment application and pay €300 to reserve the place. The amount will be deducted from the total enrolment fee.

Finally, you will receive the letter of admission and all the information you need to start the degree and prepare for your stay at the UPC.

Doctoral programmes

See the doctoral programmes taught at the UPC at: www.doctorat.upc.edu/en/programmes Admission requirements:

- An official Spanish bachelor's degree and a university master's degree, or an equivalent qualification awarded by a university in a country in the European Higher Education Area (EHEA).
- A degree that makes you eligible for admission to a doctoral degree in another country. If the qualification has not been homologated, the University will verify that the course provides an equivalent level of training and that it qualifies you to pursue doctoral-level training in the issuing country.

To apply for admission, submit your application form via the Doctoral School website:

https://www.doctorat.upc.edu/en

Fees and grants

Because it is a public university, the fees for bachelor's and master's degrees at the UPC are set and subsidised by the Government of Catalonia. The per-credit fees are published every year for each of the programmes. For students who are not residents of the European Union, the approximate fees per academic year are €2,400 for a bachelor's degree, from €2,700 to €4,300 for a 60-ECTS credit master's degree and €600 for a doctoral degree (not including academic fees and the fee for issuing the degree). See our website www.upc.edu/en for the fees for each programme and information on grants, student financial aid and other funding options.

Various agencies and government bodies recognise our institution and our degrees as eligible for students applying for their grants.

If you have been awarded a grant and you need the awarding agency to have signed an agreement with our university, contact us: international@upc.edu.

2024-2025 BACHELOR'S DEGREES

Aerospace Engineering

Aerospace Systems Engineering. Majors: Air Navigation / Airports. **EETAC**

Aerospace Systems Engineering + Telecommunications Systems Engineering / Network Engineering. **EETAC** (double degree)

Aerospace Technology Engineering. ESEIAAT

Aerospace Vehicle Engineering. ESEIAAT

Satellite Engineering. **EETAC**

Applied Sciences

Data Science and Engineering. FIB-ETSETB-FME

SCHOOLS AT UPC

The UPC's schools are located in the city of Barcelona and other cities in the Barcelona province from which there are excellent transport connections to Barcelona: Castelldefels, Manresa, Sant Cugat del Vallès, Terrassa and Vilanova i la Geltrú.

EEABB. Barcelona School of Agri-Food and Biosystems Engineering

EEBE. Barcelona East School of Engineering

EETAC. Castelldefels School of Telecommunications and Aerospace Engineering

EPSEB. Barcelona School of Building Construction

EPSEM. Manresa School of Engineering

EPSEVG. Vilanova I la Geltrú School of Engineering

ESEIAAT. Terrassa School of Industrial, Aerospace and Audiovisual Engineering

ETSAB. Barcelona School of Architecture
ETSAV. Vallès School of Architecture

ETSECCPB. Barcelona School of Civil Engineering

ETSEIB. Barcelona School of Industrial Engineering

ETSETB. Barcelona School of Telecommunications Engineering

FIB. Barcelona School of Informatics

FME. School of Matematics and Statistics

FNB. Barcelona School of Nautical Studies

FOOT. Terrassa School of Optics and Optometry **CFIS.** Interdisciplinary Higher Education Center

CITM. Image Processing and Multimedia Technology Center (affiliated school)

⁽¹⁾ The fourth year can be taken at the EPSEM or the ETSEIB.

^{*} Bachelor's degrees taught entirely in English.
