Unite! 2.0
VI Unite! Dialogue
Politecnico di Torino
Torino, 20-22 September 2022
VI Unite! Dialogue - Unite! 2.0

Politecnico di Torino will host the 6th and last Dialogue of the first three-year Erasmus+ pilot of Unite!.

While the H2020 pilot will still run for another year, and will be one of the main players of this Dialogue, with the ambitious aim of bringing together the Education and the Research & Innovation communities of our Alliance for the first time, the main focus of the Dialogue will be the future of Unite!.

Besides a series of board meetings which have become classical in the meanwhile (Governing Platform, Steering Committee, Student Organization and Academic Forum), as well as Task Force and Work Package meetings, we will have some special events, including a Presidents & Rectors Strategic Workshop the day before the Dialogue starts, an open session with many invited contributions by external stakeholders (European Commission, Ministries, Conferences of Rectors, Municipalities, etc.), and a closing session in collaboration with the CLUSTER network, the cradle of our Alliance.

Enough reasons to come to Torino at the end of the Summer?

Color code for attendees

- Members only
- Unite! Community
- Unite! Community open to external stakeholders
- TFs & WPs

For information about the city, please download the Torino Pocket Guide.
