03 TLG. THIRD LANGUAGE. Learning a third language, preferably English, to a degree of oral and written fluency that fits in with the future needs of the graduates of each course.

Teaching methodology
Project Based Learning and Problem Solving

Learning objectives of the subject
At the end of the course the student should be able to:

Understand the latest results, trends, activities and applications in future wireless networks.
Design and plan a realistic network or application.
Include Green Network aspects (spectrum and energy efficiency) in the design of a wireless network.
Define SON algorithms to optimize a wireless network.
Design realistic and multidisciplinary projects working in teams.
