Nuria Ramirez Rojo

Departamento de sostenibilidad (H&M)

A full-page advertisement featuring three women in a lush rooftop garden. The woman on the left wears a vibrant red and blue patterned shirt and black and white patterned pants. The woman in the middle wears a black and white patterned jacket and skirt. The woman on the right wears a flowing, ruffled pink dress. They are standing on a wooden walkway surrounded by various plants, including blue and purple flowers in the foreground and a wooden crate filled with orange and yellow flowers to the right. In the background, a dense city skyline with numerous skyscrapers is visible under a cloudy sky.

H&M
Circular & Renewable

4,968 stores in

72 markets, and
e-commerce in 47 markets.

Over **177,000**

employees work for the
H&M group today of whom
6,000 were new colleagues
welcomed in 2018.

VISION & STRATEGY

OUR VISION

Lead the change towards circular
and renewable fashion while being a
fair and
equal company.

Our sustainability strategy

We want to use our size and scale to lead the change towards circular and renewable fashion while being a fair and equal company.

Our three ambitions

100% LEADING THE CHANGE

- Promote and scale innovation
- Drive transparency
- Reward sustainable actions

100% CIRCULAR & RENEWABLE

- A circular approach to how products are made and used
- Use only recycled or sustainably-sourced materials
- A climate positive value chain

100% FAIR & EQUAL

- Fair jobs for all
- Inclusion and diversity

Our sustainability strategy is well aligned with the SDG goals

Our business activities directly contribute to the following SDGs

FABRIC AND YARN PRODUCTION

PRODUCT MANUFACTURING

TRANSPORT

SALES

USE

100% CIRCULAR & RENEWABLE

Becoming 100% circular

To become 100% circular we are focusing on five key stages within our value chain that are applicable to both commercial and non-commercial products:

- A. Design
- B. Material Choice
- C. Production processes
- D. Product use
- E. Product reuse & recycling

OUR GOAL
100%
recycled or other
sustainably sourced materials
by 2030.

OUR PROGRESS

In 2018, 57% of our total material use included recycled or other sustainably sourced materials.

SHARE OF RECYCLED OR OTHER
SUSTAINABLY SOURCED MATERIALS

SUSTAINABLE COTTON IN
% OF TOTAL COTTON USE

recycler**

TONNES OF GARMENTS
COLLECTED IN H&M GROUP STORES

OUR GOAL
Increase the volume
of collected garments to
25,000t per year
by 2020.

OUR PROGRESS

We have collected **20,649** tonnes of textiles for reuse and recycling through our garment collecting initiative.

That's **16%** more than last year and represents the equivalent of **103** million t-shirts.

OUR PROGRESS

Between the start of the initiative and
November 2018, we collected more than
78,000 tonnes of garments.

Take Care

Our New Packaging Strategy

We want to lead the change on circular packaging, both for commercial and non-commercial goods, and have set the following goals:

OUR PACKAGING GOALS

All packaging should be designed to be reusable, recyclable or compostable by 2025.

We will use **100%** recycled and other sustainably sourced materials by year 2030.

We will reuse or recycle **100%** of packaging waste from our own sites by 2025.

AFOUND

OUR GOAL
Climate positive
throughout our value chain
by 2040.

Becoming
climate positive

Priority 1:

Energy use within our own operations					
ENERGY USE IN GIGAJOULES	2014	2015	2016	2017	2018
Building diesel	3,586	716	3,241	3,791	4,355
Direct heating	68,208	44,953	43,347	98,921	134,801
Electricity*	3,804,291	4,399,990	4,995,002	5,575,996	5,841,296
Building natural gas, oil and others	155,937	161,959	178,128	214,558**	205,826
TOTAL	4,032,022	4,607,618	5,219,718	5,893,266	6,186,278

Priority 2:

% OF RENEWABLES IN OUR
OWN OPERATIONS TOTAL
ELECTRICITY USE

*Due to inaccuracy in calculation, the 2017 share has been corrected from 96% to 95%.

MILESTONE GOALS

(own operations)

Reduce electricity use in
our stores by **25%** by 2030.

Use **100%** renewable electricity.

PIONEERING
WATER
STEWARDSHIP
FOR FASHION

Water management

Our 5-step water stewardship strategy

1. WATER AWARENESS

Building water awareness at our company, at our suppliers' factories and amongst our customers to ensure high level understanding of the global water challenges and their dependence on freshwater.

2. KNOWLEDGE OF IMPACT

Measuring water impact and risk within our stores, warehouses and suppliers' factories.

3. INTERNAL ACTION

Improving the use of water within our stores, warehouses and our suppliers' factories.

4. STAKEHOLDER ENGAGEMENT

Increased focus on collective action with other companies, governments and NGOs in multi-stakeholder platforms to address water issues in specific focus regions.

5. INFLUENCE GOVERNMENTS

Increased focus on government influence by engaging with public policymakers to manage water basins in a sustainable way.

Leading the change

Our work centers on three focus areas:

- Innovation
- Transparency
- Rewarding sustainable actions

Conscious Exclusive Collection

Conscious Collection

Transparency product

PRODUCT SUSTAINABILITY

We believe that greater transparency will help lead the change towards a more sustainable fashion future. As a first step in this long-term commitment, we're sharing how and where our products are made wherever possible.

MATERIALS

Our goal is to use 100% recycled or other sustainably sourced materials by 2030.

- Polyester 100%

POLYESTER

Conventional polyester is a commonly used artificial fibre made from fossil resources (crude oil). We are constantly striving to increase our use of recycled polyester, a more sustainable option made from waste such as plastic (PET) bottles. We are also engaging heavily in developing technologies that will enable textile-to-textile recycling, to further improve the sustainability of recycled polyester and save natural resources.

OUR SUPPLIERS

This product has been produced in one of the following countries:

- Indonesia

Suppliers and factories for this product

All our products are made by independent suppliers, often in developing countries where our presence can make a real difference. Our business helps to create jobs and independence, particularly for women – consequently lifting people out of poverty and contributing to economic growth.

We only work with partners who share our respect for people and the environment, and who are willing to work with us to improve their practices. All suppliers and factories must sign our strict Sustainability Commitment, which includes requirements for fair wages and good working conditions for all. We employ dedicated sustainability staff in our worldwide production offices to make sure the commitment is followed.

BE A FASHION RECYCLER

You too can help the environment and make fashion more sustainable. Bring unwanted clothes or home textiles to any H&M store and they will be reworn, reused or recycled.
