

# Master's degree in Applications and Technologies for Unmanned Aircraft Systems (Drones)

The **master's degree in Applications and Technologies for Unmanned Aircraft Systems (Drones)**, ([master's degree website](#)) provides specialised training in the applications of drones, including technical aspects (the selection of platforms and instruments) and legal and economic aspects (applicable regulations and business opportunities).

On this master's degree you will learn the following:

- to devise new applications for drones;
- to choose the most suitable platforms for drones depending on their application;
- to integrate the equipment needed for a mission, such as sensors and cameras, into the platforms and to develop any other additional components needed for integration; and
- to turn the applications of drones into feasible and profitable businesses.

You will learn all of the above while working in a company or research group on a project that makes up 75% of the workload of the master's degree.

Graduates of the master's degree will be qualified to join any company that is devoted to developing industrial solutions based on drones.

## GENERAL DETAILS

### Duration and start date

One academic year, 60 ECTS credits

### Timetable and delivery

Face-to-face

### Fees and grants

Approximate fees for the master's degree, excluding other costs, €2,766 (€4,149 for non-EU residents).

[More information about fees and payment options](#)

[More information about grants and loans](#)

### Language of instruction

English

### Location

[Castelldefels School of Telecommunications and Aerospace Engineering \(EETAC\)](#)

## ADMISSION

### General requirements

[Academic requirements for admission to master's degrees](#)

### Places

30

### Pre-enrolment

Pre-enrolment period open.

Expected deadline: 05/07/2021.

[How to pre-enrol](#)

### Enrolment
