Master's degree in Biomedical Data Science

The master's degree in Biomedical Data Science is a master's programme in which 7 Catalan universities participate (URV, the coordinating university, and UPC, UB, UAB, UdG, UdL and UVic-UCC) and that was set in motion by the association Bioinformatics Barcelona (BIB). It is taught entirely in English and has a clear international vocation.

It aims to produce professionals and scientists specialised in biomedical data science who are able to manage, integrate, analyse and extract information from the big data that are generated in relation to health and healthcare and who can therefore contribute to the advancement of precision medicine.

### GENERAL DETAILS

**Duration and start date**
2 years, 120 ECTS credits. Starting September

**Timetable and delivery**
Distance

**Language of instruction**
English

Information on language use in the classroom and students' language rights.

**Location**
Universitat Rovira i Virgili (URV)

### ADMISSION

**General requirements**
Academic requirements for admission to master's degrees

**Places**
50

**Pre-enrolment**
To enrol for an interuniversity master’s degree coordinated by a university other than the UPC, you must enrol through the coordinating university:
Universitat Rovira i Virgili (URV)

### PROFESSIONAL OPPORTUNITIES

**Professional opportunities**
Graduates of the interuniversity master’s degree in Biomedical Data Science will be qualified to work in the public sector (government agencies, universities, research centres and large scientific infrastructure, hospitals, hospital research centres) and the private arena (technology-based, pharmaceutical, consulting and insurance companies) in the following main areas:
- project and technical management
- scientific programming
- scientific and technical consultancy
- research
- academia

**Competencies**
**Generic competencies**

Generic competencies are the skills that graduates acquire regardless of the specific course or field of study. The generic competencies established by the UPC are capacity for innovation and entrepreneurship, sustainability and social commitment, knowledge of a foreign language (preferably English), teamwork and proper use of information resources.
