Digital Storage Oscilloscopes

- TDS1002 • TDS1012 • TDS2002 • TDS2012 • TDS2014 • TDS2022 • TDS2024

Features & Benefits
- 60 MHz, 100 MHz, and 200 MHz Bandwidths
- Sample Rates up to 2 GS/s
- 2 or 4 Channels
- Color or Monochrome LCD Display
- CompactFlash® Mass Storage Option with TDS2MEM Module
- Autoset Menu with Waveform Selection
- Probe Check Wizard to Ensure Correct Probe Usage
- Context-sensitive Help
- Dual Time Base
- Advanced Triggers, Including Pulse Width
- Trigger and Line-Selectable Video Trigger
- 11 Automatic Measurements
- Multi-language User Interface
- Waveform and Setup Memories
- FFT Standard on All Models
- OpenChoice™ Solutions
  - Speed Documentation and Analysis of Measurement Results
  - TDS2CMAX Communication Module
  - TDS2MEM Storage Memory and Communication Module
  - TDSPCS1 OpenChoice Software
  - WaveStar™ Software
  - Integration with Third-party Software

Applications
- Design and Debug
- Education and Training
- Manufacturing Test and Quality Control
- Service and Repair

TDS1000 and TDS2000 Series Oscilloscopes.
Colorful Performance at a Black and White Price.

Affordable Digital Precision

With up to 200 MHz bandwidth and 2 GS/s maximum sample rate, no other color digital storage oscilloscope offers as much bandwidth and sample rate for the price. The TDS1000 and TDS2000 Series oscilloscopes provide accurate real-time acquisition up to their full bandwidth, advanced triggers to isolate signals of interest, and 11 standard automatic measurements on all models. Their Fast Fourier Transform (FFT) math function allows the user to analyze, characterize and troubleshoot circuits by viewing frequency and signal strength (standard on all models).
Digital Storage Oscilloscopes

Ultra-fast Setup and Use
The simple user interface with classic, analog-style controls makes these instruments easy to use, reducing learning time and increasing efficiency. Innovative features, such as the autoset menu, probe check wizard, context-sensitive help menu and color LCD display (TDS2000 Series) optimize instrument setup and operation.

Simple, Speedy Documentation and Analysis
OpenChoice™ solutions deliver simple, seamless integration between the oscilloscope and the personal computer, providing you with multiple choices to easily document and analyze your measurement results.

Unparalleled measurement accuracy with up to 200 MHz bandwidth and 2 GS/s maximum sample rate.

Automatically detects sine waves, square waves and video signals, with readouts of relevant measurements and additional user-selectable views of the signal.

Pulse-width and field- and line-selectable video triggers make the oscilloscope ideal for a wide range of applications.

Choose from optional communication modules, CompactFlash® mass storage capability, OpenChoice software and integration with third-party software.
**Digital Storage Oscilloscopes**

- TDS1002 • TDS1012 • TDS2002 • TDS2012 • TDS2014 • TDS2022 • TDS2024

- Easily document and analyze measurement results using OpenChoice™ software.
- Precisely analyze, characterize and troubleshoot circuits – at the push of a button with the autoset menu.
- Quickly transfer waveforms and measurement data to an external PC or between oscilloscopes.

</table>

*1 Bandwidth is 20 MHz at 2 mV/div, all models. Bandwidth is 200 MHz typical between 40 °C and 50 °C, 200 MHz models only.
Acquisition Modes
Peak Detect – High frequency and random glitch capture. Captures glitches as narrow as 12 ns typical using acquisition hardware at all time/div settings from 5 µs/div to 50 s/div.
Sample – Sample data only.
Average – Waveform averaged, selectable: 4, 16, 64, 128.
Single Sequence – Use the Single Sequence button to capture a single triggered acquisition sequence at a time.

Trigger System (Main Only)
Trigger Modes – Auto, Normal, Single Sequence.

Trigger Types
Edge (rising or falling) – Conventional level-driven trigger. Positive or negative slope on any channel. Coupling selections: AC, DC, Noise Reject, HF Reject, LF Reject.
Video – Trigger on all lines or individual line, odd/even or all fields from composite video, or broadcast standards (NTSC, PAL, SECAM).
Pulse Width (or Glitch) – Trigger on a pulse width less than, greater than, equal to, or not equal to a selectable time limit ranging from 33 ns to 10 sec.

Trigger Source
2-channel models – CH1, CH2, Ext, Ext/5, AC Line.
4-channel models – CH1, CH2, CH3, CH4, Ext, Ext/5, AC Line.

Trigger View
Displays trigger signal while trigger view button is depressed.

Trigger Signal Frequency Readout
Provides a frequency readout of the trigger source.

Cursors
Types – Voltage, Time.

Measurement System
Automatic Waveform Measurements – Period, Frequency, +Width, –Width, Rise Time, Fall Time, Max, Min, Peak-to-Peak, Mean, Cycle RMS.

Waveform Processing
Operators – Add, Subtract, FFT.
FFT – Windows: Hanning, Flat Top, Rectangular; 2048 sample points.
Sources – 2-channel models: CH1 - CH2, CH2 - CH1, CH1 + CH2.
4-channel models: CH1 - CH2, CH2 - CH1, CH3 - CH4, CH4 - CH3, CH1 + CH2, CH3 + CH4.

Autoset Menu – Single-button, automatic setup of all channels for vertical, horizontal and trigger systems, with undo autoset.

Autoset Menu for Multiple Signal Types

Display Characteristics
Display – Monochrome models: 1/4 VGA, backlit passive LCD with adjustable multi-level contrast and inverse video selectable from front panel. Color models: 1/4 VGA, passive color LCD with color on black background with adjustable multi-level contrast.
Interpolation – Sin(x)/x.
Display Types – Dots, vectors.
Persistence – Off, 1 sec, 2 sec, 5 sec, infinite.
Format – YT and XY.

*Requires instrument firmware version 2.12/4.12 or higher to support Epson C60/C80 printer formats.

*3Supplied Type 1 CompactFlash memory card storage capacity 8 MB or greater.
Environmental and Safety

Temperature –
Operating: 0 ºC to +50 ºC.
Nonoperating: –40 ºC to +71 ºC.

Humidity –
Operating and Nonoperating: up to 90% RH at or below +30 ºC.
Operating: up to 60% RH up to 50 ºC.
Nonoperating: up to 60% RH up to 55 ºC.

Altitude – Operating and Nonoperating: up to 3,000 m.

Safety – UL3111-1, CSA1010.1, IEC61010-1, EN61010-1.

Ordering Information

TDS1002, TDS1012, TDS2002, TDS2012, TDS2014, TDS2022, TDS2024

Standard Accessories

Probes – P2220 200 MHz 10X - 1X Switchable Passive Probes (one per channel).
Power cord.
NIM/NIST-Traceable Certificate of Calibration. Please specify the power plug and language options when ordering.

Recommended Accessories

TDS2CMAX – Communication Module (GPIO, RS-232, Centronics-type Printer Port) includes:
TDS2MEM – Storage Memory and Communication Module (RS-232, Centronics-type Printer Port) includes:
CompactFlash to USB Memory Card Reader – (119-6827-00).

TDSPCS1 OpenChoice PC Communication Software – A collection of programs that enable fast and easy transfer communication between MS Windows PCs and TDS2000B, TDS2000, TDS1000, and TDS2000 Series oscilloscopes; included with TDS2CMAX and TDS2MEM communication modules.

Minimum System Requirements:
- 500 MHz Pentium equivalent or greater
- 128 MB
- MS Windows 98 SE, XP Professional, Me, or 2000
- MS Office 2000 or XP (for TDS toolbars only)
- Keyboard and mouse
- LAN, GPIB or serial connector

WaveStar™ Software for Oscilloscopes (WSTRO) – Windows 98/2000/ME/NT 4.0 application for waveform capture, analysis, documentation, and control from your PC. Provides enhanced oscilloscope data measurement, analysis, remote-setup, and charting features. Connects to a wide variety of Tektronix oscilloscopes over GPIB, RS-232, and Ethernet connections.

Recommended Probes
- P2220 – 10X - 1X switchable passive probe (200 MHz when 10X is selected).
- P6015A – 100X high voltage passive probe (75 MHz).
- P5100 – 100X high voltage passive probe (250 MHz).
- P2500 – High-voltage active differential probe (25 MHz).
- P6021 – 60 MHz AC current probe.
- P6022 – 120 MHz AC current probe.
- A621 – 2000 A AC current probe/BNC.
- A622 – 100 A AC/DC current probe/BNC.
- AM503S – AC/DC current probe system.

Power Plug Options
- Opt. A0 – North America power.
- Opt. A3 – Australia power.
- Opt. A5 – Switzerland power.
- Opt. A99 – No power cord or AC adapter.
- Opt. AC – China power.

Accessory Cables
- GPIB, 1 m (3.3 ft.) – Order 012-0991-01.
- GPIB, 2 m (6.6 ft.) – Order 012-0991-00.
- RS-232, 9-Pin female to 25-Pin male, 4.6 m (15 ft.), for Modems – Order 012-1241-00.
- RS-232, 9-Pin female to 9-Pin female, null modem, for computers – Order 012-1651-00.
- RS-232, 9-Pin female to 25-Pin female, null modem, for printers – Order 012-1380-00.
- RS-232, 9-Pin female to 25-Pin male, null modem, for printers – Order 012-1288-00.
- Centronics, 25-Pin male to 36-Pin Centronics, 2.4 m (8 ft.), for Parallel Printer Interfaces – Order 012-1214-00.

International User Manual (TDS1000 and TDS2000 Series Digital Storage Oscilloscopes, includes TDS2CMAX™ user information)
- Opt. L0 – English (071-1064-00).
- Opt. L1 – French (071-1065-00).
- Opt. L2 – Italian (071-1066-00).
- Opt. L3 – German (071-1067-00).
- Opt. L6 – Portuguese (071-1070-00).
- Opt. LR – Russian (071-1074-00).

Translated front panel overlays included with their respective user manuals.

Warranty Information
Three year warranty covering all labor and parts, excluding probes and accessories.

* The user information for the TDS2CMAX communication module that appears in this manual also applies to the TDS2CMAX communication module.
A Critical Component of the Complete Measurement Solution.
The AFG300 Series arbitrary function generator pairs with the TDS3000B, TDS2000 and TDS1000 Series digital oscilloscopes to deliver the two elements of a complete measurement solution – stimulus and acquisition. This instrument combines the capabilities of a function generator with the power of an arbitrary waveform generator, offering the performance needed to accurately verify, validate and characterize designs with ease and confidence at a price you can afford.

Tektronix Support Completes the Solution. We know you depend on Tektronix instrument solutions when you make and meet critical commitments. So we make and meet a support commitment you can depend on. Anytime you need support, anywhere in the world, Tektronix Support gives you the lowest possible exposure to inconvenience, delay or disruption of operations.

- Unsurpassed technical expertise and experience with 24-hour response to technical questions
- Interactive, online support to request assistance, check service status or arrange for training
- Industry-leading, turn-around service time
- Credible, reliable support with demonstrated on-time delivery
- 90-day unconditional service warranty
- No fine print, no exclusions, no surprises
- Global support in more than 50 countries

Depend on Tektronix. Visit www.tektronix.com/support
