8. Host Universities you apply to

Please prioritise the HEIs you are applying to.

* Field of study of the project you intend to develop at the host Institution:

06 - Engineering, technology

06.5 - Electronic Engineering, Telecommunications

* Official Name of your first host Institution priority:

UniSi - University of Siena

* Country:

Italy

* Official name of the course you intend to attend at the host institution selected as first priority:

Electronic and communications engineering

Official Name of your second host Institution priority:

UPC - Polytechnic University of Catalonia

Country:

Spain

Official name of the course you intend to attend at the host institution selected as second priority:

MASTEAM

[Back to index](#)

9. Motivation and Added Value

* Describe briefly what you consider to be the added value of an international experience in your training process and the development of your future professional activity.

(Max. 1000 characters)

As the next step of my career I would like to work in the Research and Development (R&D) department creating and testing equipment. One of the requirements to work in R&D department is having more profound level of knowledge than I have now. Therefore I want to continue my education at a postgraduate level.

The MSc degree program Electronic Engineering and Telecommunications meets my study needs and aspirations. It provides knowledge and skills which, in my opinion, a good R&D engineer should be competent at.

ERANET program offers study in multinational team which gives chance to learn international experience within Electronic Engineering and Telecommunications sphere and make links around the world for future cooperation.

My academic background, motivation and personal qualities will help me to perform well in this program. I also believe that as a part of the student community I could make significant contribution to the study process on the program.
