9. Motivation and Added Value

* Describe briefly what you consider to be the added value of an international experience in your training process and the development of your future professional activity.

(Max. 1000 characters)

I apply to Eranet Plus scholarship competition because studying abroad is an excellent opportunity for self-development. I always have positive thoughts and I believe everything is possible with enough effort. Also I like meeting new people and share ideas, knowledge, experience and impressions. I love exploring other cultures because it makes me think differently. Studying abroad will give me an opportunity to perfect my English in everyday life and studying. I hope to find a job in international corporation connected with network technologies. The European university's educational system is known due to its high standards. That is why in-depth knowledge about networks, engineering and programming, learned at European university, will give me solid foundation and help in applying for a job. It would be fortunate to be accepted so I could get new knowledge, build new contacts and see the beauty of Europe.
